

ARNE'S AUCTION

Minimum prices.

I have put minimum prices on most cars and some of the parts. I just kept them to myself to make it simple and not to discourage bidding.

If not sold.

If some things are not sold I will try other channels and I will keep this page up, open for bids indefinitely.

Auction and overbidding.

I will update bids on the page for the last time at noon, 24.00 CET-1, on the 30th of April.

When I wake up on Sunday, the 1st of May:

- a) Sole bidder that surpasses the minimum price will be contacted to arrange shipment and handling.
- b) If there are competing bids that surpasses the minimum price, the bidder with the second best bid will be contacted, notified of the best bid and bidder, and offered the possibility to place a new and final bid before 18.00 CET. If there is a new bid, I will then contact the previous leader and offer the same possibility for a new and final bid.
- c) Bidder not surpassing the minimum price will be informed.

Exchange of goods and money.

If we can't meet in person, which of course would be the best, we will send the goods by mail. We will then send you the package identification number and an invoice including the postage. We would prefer if payments could be done by bank transfer, direct to Arne's bank account. But we are looking at other methods of payment.

Stockholm, April 27th 2016.
